

# GOLDEN

## ARTIST COLORS HEAVY BODY ACRYLIC

Regarded by many of our customers and staff to be the finest acrylic available. If you have never tried them we suggest you do.

The original line of Golden Acrylics are known for their exceptionally smooth, thick consistency (heavy body). It contains the largest assortment of unique pure pigments in a 100% acrylic emulsion vehicle available to the professional artist. These colours offer excellent permanency and lightfastness. There are no fillers, extenders, opacifiers, toners or dyes added. Fluorescents are made using dyes & therefore have poor lightfastness. More information via the website. Manufacturers colour chart & further information available on request.
