

**HOLBEIN ARTISTS' WATERCOLOUR**  
*108 Colours of Superior Artist Quality*  
*Unique, Vibrant and Crisp Beautiful Colours*

Many customers and particularly botanical painters love these exceptional colours. Dedicated to excellence, Holbein believes there is no substitute for quality. Holbein are the principle supplier to the World's oldest professional watercolour market, offering a range of 108 moist watercolours of unsurpassed purity and permanence with a combination of unequalled consistency and brilliance. Holbein Artist Moist Watercolours are ground to reproduce the characteristics of the hand-ground pigments of the Renaissance. Holbein do not employ ox-gall into their watercolours, this gives the artist greater control in the dispersal of their colours. This also permits the layering of colour after colour without the colours turning muddy and the colours, even in a very dark setting, maintaining their brilliance. It is a colour line with a consistent creamy texture for mixing with a deep, clear, clean tone which remains brilliant, even when watered down to light hues. Holbein do not make a pan watercolour because when they harden in the palette, they harden smooth without cracking or chipping and they never mould. Therefore, any watercolour artist can purchase Holbein watercolours, squeeze them into a palette and have them harden and behave like pans. Widely preferred around the world for its handling qualities, Holbein watercolour truly ranks as the world's finest. Highly acclaimed and very highly recommended.
