

DALER ROWNEY

Quality water colour, made in England and at these prices excellent value for money.

Daler Rowney Artist Water Colour is characterised by its rich, free-flowing colour, which leaves no hard lines at the edge of washes. Its unparalleled performance is a product of precise formulations based on the suspension of the very finest quality pigments in an aqueous solution of gum arabic. The formula for each colour varies according to the nature and behaviour of the pigment. Only the best pigments, regardless of cost, are used in the manufacture of Artists' Water Colour. Charles Evans: "Artists' quality Water Colours from Daler Rowney have a wonderful strength of pigment, giving beautiful, powerful luscious colour. I have used them since my student days. Let's face it, if they were good enough for the great JMW Turner then they are certainly going to please the likes of me!"
